

**Supply List for: BOBBIN QUILTING or QUILTING UP-SIDE-DOWN**  
**a workshop by Elizabeth Rosenberg**

**FABRIC:**

One yard solid or tone-on tone that reads as a solid for the top.  
One yard of a large, distinctive print for the back

**BATTING:**

Cotton batting, crib size

**THREAD: I will have a supply of thick, smooth threads available for purchase. if you have trouble finding any of the brands listed below.**

- 50 wt cotton or 40 wt rayon in colors to blend with backing
- Basting thread
- Thick, SMOOTH threads. Some examples are:
- YLI Candlelight
- Ribbon Floss
- Maderia Decor
- Kreinik Metallic
- 1/16" Ribbon
- Madeira Glamour
- YLI Pearl Rayon
- Kreinik Metallic Very Fine Braid #4

**NEEDLES:**

- Hand needles: John James Long Darners
- Machine needles: Size 75 "Quilting" type needles

**OTHER SUPPLIES:**

- Well-adjusted sewing machine with which you have a good relationship — ***remember to pack your snap-on or free-standing extension table, the manual that came with your machine and a telephone book to sit on (or bring a pillow, if you are a delicate flower — six hours on a telephone book can be hard in more ways than one)***
- Masking tape
- Darning foot (if you use a "Big Foot", bring it, but be sure to pack any other darning feet you may own!) If you've never used a darning foot before, try to get one from the manufacturer of your sewing machine, it will work better than a "generic" foot.
- Applique foot (#20 for Bernina owners)
- Walking foot
- At least six EMPTY bobbins.
- Sewing Machine Oil (even if your machine shouldn't be oiled – we'll be using it for something different!)
- Cotton Swabs (not Q tips brand – buy the cheap store-brand ones, they're better!)

- Chenille Sticks or Stems (they look like pipe cleaners. You'll find them in a craft store)
- Notepad and Pencil
- Small Scissors or thread snips
- The little tiny screwdriver that came with your sewing machine

**RECOMMENDED BUT NOT REQUIRED:**

A second bobbin case. If you don't already own one, don't go out and buy one.
